***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-6, 9, and 13-18 drawn to a multicarrier modem, classified in class 375, subclass 222.
  - II. Claims 7, 8, and 10-12 drawn to a silicon solution, classified in class 423, subclass 324.

2. The inventions are distinct, each from the other because of the following reasons:

Group I refers to a multicarrier modem comprising of a resource manager and having the ability to operate for a plurality of service types. Group II refers to a silicon solution and components implemented into a silicon solution.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
